HOTEL BOOKING CANCEALATION ANALYSIS

FIND:

1) What is the total number of hotel bookings and the total cancellations?

2) What percentage of room bookings are categorized as "Desired" versus "Undesired"?

3) How do the "Desired" and "Undesired" bookings differ among couples, families, and singles?

4) What percentage of room requests were fulfilled compared to those that were not fulfilled?

5) How does the number of cancellations compare to the total bookings for different guest types (couples, families, singles)?
